NOTIFICATION

Respected Officials/ Bonafide Members,

As we all are aware that All India Medical Laboratory Technologists Association (AIMLTA) came into existence in the year 1970, do as the Constitution of AIMLTA. Let's go about 54 years back and peek into the features of the Constitution, it has served as a basis for ensuring several rights and remedies, as apart from being a support system. A Constitution to be living must be growing. If the impediments to the growth of the Constitution are not removed, the Constitution will suffer a virtual atrophy. The editing & correction of this Constitution was done as per requirement from time to time, accordingly an amendment was done in the year 2011.

The fact is that the Registration department and the Government of India had made various amendment in rules and regulations in the last 10-15 years, which has been engaging the active attention of Government and the public for some years now. Accordingly, it is the demand of the current scenario & global modifications that our AIMLTA Constitution needs correction, edition & addition so that it may stands updated as per Govt. changing policy.

In terms of authority vested upon me, I am directed to announce that the Central Executive Committee of the All India Medical Laboratory Technologists Association (AIMLTA) has constituted The Constitution Amendment Committee (AIMLTA).

The decision to establish an 11-member Amendment Committee has been made in accordance with the approval of the Central Executive Committee and State Secretaries meeting held at Nice Hotel, Gurudwara Road, Karol Bagh, New Delhi, where consensus was reached.

In view of the above, committee is hereby constituted in order to comply with the directions for suo moto and updating as under:

- | | | | |
|--------------------------|--|---|----------|
| 1. Mr. A.N. Sinha | Sharvashree, AIMLTA | - | Chairman |

This decision was subsequently ratified by the General Body Meeting on October 22, 2024, at Jawahar Lal Auditorium, AIIMS, New Delhi. The General Body Members approved the list of committee members and accepted time-bound suggestions from the dias.

Congratulations! to all of you, sooner you will be getting information regarding the meeting.

The amending of the Constitution for removing the difficulties which have arisen to make the directive principles more comprehensive and give them precedence in achieving the objective, it is also necessary to make modifications, to avail of the present opportunity to make certain other amendments which have become necessary in the light of the working of the Constitution.

A constitutional amendment is a modification of the constitution of a polity, organization or other type of entity. It is proposed to avail of the present opportunity to make certain other amendments, as it considers necessary for the performance of its functions. Amendments are often interwoven into the relevant sections of an existing constitution, directly altering the text. This committee is empowered to add, alter, or repeal any unwanted article from constitutional provision following the quorum required.

Together we would thoroughly discuss and finalize the amended constitution which will be more beneficial, content of which would be competent enough in terms of AIMLTA future perspectives.

Looking forward to meet you all very soon.
